

# SMD POWER/BACKLIGHT INDUCTORS

## RSB402,402L,403,403C,403CL,803,805,805C,811,1306,1306C Series

- Tiny and low-profile inductors that are designed for PCMCIA Type II and other space-conscious applications. Only 2.49mm high.
- RSB402 series is ideal for DC-DC conversion in NB computers, pagers, PDAs, flash memory programmers, and all types of battery powered equipment.
- Operating temperature range: -40°C to +85°C
- Tape and Reel package.

### ELECTRICAL SPECIFICATIONS @25°C

## RSB402,402L,403,403C,403CL,803,805,805C,811,1306,1306C Series

- These low profile series has the high breakdown voltage ratings required for backlight applications. Only 2.49mm high, Standard inductance values range from 1 to 6.8mH and custom value are available to meet specific requirement.
- Operating temperature range: -40°C to +85°C
- The insulation of core-winding should be 10MΩmin.

### ELECTRICAL SPECIFICATIONS @25°C

## RSB402,402L,403,403C,403CL,803,805,805C,811,1306,1306C Series

- These tiny shielded inductors are specially engineered for demanding backlighting applications. They feature high breakdown voltage and exceptional efficiency:DCR is 10% to 60% lower than other inductors.
- These shielded inductors are designed with a flat top and constructed of heat resistant materials to ensure trouble-free assembly and reflow operations. In addition to the standard values shown, custom inductors are also available.
- Operating temperature range: -40°C to +85°C
- The insulation of core-winding should be 10MΩmin.

## RSB402,402L,403,403C,403CL,803,805,805C,811,1306,1306C Series

- These series of surface mount power inductors is designed for the higher current requirements of the Pentium Pro and other portable and handheld devices.
- The maximum rated current is 8.6Arms with a saturation current of 20Amps for a 1uH inductor. Exceptionally low dc resistance (as low as 0.009Ω) keeps power losses to a minimum.
- Operating temperature range: -40°C to +85°C
